High Risk: 14    Medium Risk: 17    Low Risk: 8    Info: 4

DELIVERY TABLE

| Stream              | Owner    | Status   | Progress | Risk   |
|---------------------|----------|----------|----------|--------|
| Identity Hardening  | E. Brown | On Track | 87%      | Low    |
| Secrets Rotation    | P. Nair  | At Risk  | 58%      | High   |
| Dependency Scanning | I. Shah  | On Track | 81%      | Medium |
| WAF Policy          | S. Reed  | On Track | 76%      | Low    |

## HIGHLIGHTS & NOTES

- Critical vulnerabilities reduced through mandatory patch windows.
- Secrets rotation remains the highest-risk stream and needs additional staffing.
- External penetration test scheduled for next sprint to validate fixes.
